ZAHIDUL ISLAM

Business Analytics Graduate Student • M.S. in Business Analytics, University of Tulsa
zai4304@utulsa.edu • (585) 303-3965 • linkedin.com/in/zahidul-islam007 • github.com/islzahid-BA

PROFESSIONAL SUMMARY

Data analyst with experience supporting nonprofit and for-profit organizations, complemented by hands-on entrepreneurial experience building and managing businesses. Skilled in transforming data into actionable insights, interactive dashboards, forecasts, and automated workflows using Python, SQL, Power BI, Excel, statistical analysis, and machine learning. Tech enthusiast skilled in applying generative AI and AI-assisted tools to accelerate analysis, research, reporting, problem-solving, and process improvement.

SKILLS

Tools & Platforms: SQL, Python, R, Excel, Power BI, Airtable, HubSpot, WordPress, Google Analytics, SEMrush, Google Ads, Meta Ads, Notion, Canva, CapCut Pro, Adobe Illustrator

Analytics & Methods: Data Cleaning, KPI Development, Dashboard Development, Statistical & Predictive Modeling, Machine Learning, Forecasting, XAI

Business Skills: Requirements Analysis, Project Management, Process Improvement, Workflow Automation, Stakeholder Reporting, Market Analysis, Risk Monitoring

WORK EXPERIENCE

Database Coordinator · Albert Schweitzer Fellowship · Tulsa, OK *Oct 2025 – Present*

- Built a centralized Airtable CRM integrating 15,000+ fellow, alumni, donor, partner, survey, and program records, creating a consistent and accessible source for reporting and analysis.
- Translate operational needs into scalable data workflows by designing database structures, validation rules, approval processes, and automations that reduce manual tracking and improve data accuracy.
- Analyze survey, program, and engagement data to identify trends and convert findings into executive reports and visual summaries for the Board of Directors and senior leadership.
- Design data, dashboard and reporting systems for national initiatives to improve coordination, consistency, and timely decision-making.

Marketing Analyst & SEO – Volunteer · TECHSHIELD LLC · Rochester, NY *Oct 2023 – Mar 2024*

- Analyzed website performance using SEMrush and Google Analytics to identify SEO gaps, traffic trends, and content visibility issues.
- Analyzed marketing goals, budget constraints, and campaign performance data to develop a targeted outreach plan, increasing order volume by 2.5x compared with the previous campaign period.
- Resolved broken links, duplicate tags, and crawl errors, improving overall site health score by 13%.

Founder & Business Owner · LZ Brands · Dhaka, Bangladesh *Jan 2020 – Jul 2022*

- Analyzed sales trends, customer demand, and inventory movement to guide marketing and outreach strategies, more than doubling monthly order volume by the final year.
- Launched an inventory consignment program based on stock movement and sales pattern analysis, increasing profit margin by 19%.
- Developed data-informed sales strategies and led a 6-member team to sustain operations through COVID-19 market disruption.

Co-Founder & Business Owner · ZAS Wardrobe · Dhaka, Bangladesh *Apr 2019 – Jul 2022*

- Maintained inventory, vendor, customer, and logistics records in Excel and Google Drive to support sales tracking, order fulfillment, and operational planning.
- Increased brand reach by 34% through organic marketing campaigns, using engagement trends to improve content timing and customer outreach.

EDUCATION

M.S. in Business Analytics *Graduation: Dec 2026*
University of Tulsa · Tulsa, OK GPA: 4.00

M.S.S. in Public Administration *Graduation: Dec 2020*
Bangladesh University of Professionals · Dhaka, Bangladesh GPA: 3.83

B.S.S. in Public Administration *Graduation: Dec 2019*

Bangladesh University of Professionals · Dhaka, Bangladesh GPA: 3.60

ANALYTICAL & RESEARCH PROJECTS

Metro by T-Mobile Store Performance Analytics *Python · ML · Forecasting · Power BI*

- Built an integrated performance-tracking and early-warning system for 10 Tulsa-area stores, simplifying fragmented reports and enabling faster, data-informed decisions.
- Analyzed store-level sales, revenue, accessory, service, and operational trends to assess each location's strengths, weaknesses, and efficiency, then provided store-specific recommendations for improvement.
- Developed a comprehensive four-page Power BI dashboard integrating KPI tracking, store comparisons, efficiency analysis, forecasting, and decline-risk monitoring into a single decision-support tool.

Digital Health Engagement Score Project *Python · R · Excel · Statistical Models · XAI*

Manuscript in preparation

- Developed a Digital Health Engagement Score to examine how digital engagement relates to health and well-being outcomes.
- Engineered a composite score from multiple survey-based indicators to identify lower-engagement digital health profiles.
- Applied model interpretation techniques to identify factors associated with higher-risk health profiles and produce stakeholder-ready insights.

Decision Support for Brain Tumor Screening *Python · TensorFlow/Keras · CNN · XAI · LLM/VLM*

Manuscript in preparation

- Built an end-to-end MRI image analysis workflow covering preprocessing, CNN-based classification, model evaluation, and explainability reporting.
- Developed transfer-learning models using TensorFlow/Keras to classify brain MRI images, achieving approximately 85% accuracy in current experiments.
- Applied explainable AI to assess tumor-relevant attention regions and designed a VLM/LLM-assisted reporting concept for human-readable interpretation reports.

End-to-End SQL Data Warehouse *SQL· ETL/ELT · Data Modeling*

- Built a production-style analytics warehouse using Bronze/Silver/Gold (medallion) architecture — from raw source ingestion through cleaned, conformed data to a star schema business layer.
- Designed fact and dimension tables (FactSales, DimCustomer, DimProduct, DimDate) with surrogate keys and SCD Type 2 logic to support accurate historical reporting.
- Wrote stored procedures for the full ETL pipeline with automated data quality checks at every stage.

LEADERSHIP

Vice President · Entrepreneurship Club, BUP · Dhaka, Bangladesh *Feb 2019 – Dec 2021*

- Supported student entrepreneurship initiatives, coordinated team activities, and helped organize a university business fair.
